# COMPANY OVERVIEW

DataKonsult (Pty) Ltd is a pioneering technology company specializing in advanced data mining, analytics, and reporting solutions. The company provides real-time insights through its proprietary DataKonsult Platform and innovative Companion Devices, offering clients unparalleled control over data-driven decision-making.

DataKonsult's expertise spans multiple industries, including mining, agriculture, finance, manufacturing, and more, ensuring tailored solutions that enhance operational efficiency and compliance.

# OUR VISSION

DataKonsult (Pty) Ltd is redefining how industries leverage data, providing immediate insights, enhanced efficiency, and unmatched control. By integrating state-of-the-art data analytics with industry-specific applications, the company empowers businesses to transform raw data into strategic assets, driving sustainable growth and operational excellence.

# THE DATAKONSULT DIFFERENCE

ADVANCED DATA CAPTURING & ANALYTICS

INDUSTRY-SPECIFIC SOLUTIONS

PROVEN OPERATIONAL IMPACT

INNOVATIVE TECHNOLOGY INTEGRATION

# ADVANCED DATA CAPTURING & ANALYTICS

- Cutting-edge **Companion Devices** ensure **high-quality, real-time data collection** from various operational sources.
- The DataKonsult Platform **integrates, cleans, and analyzes data**, providing **accurate** and **actionable reports**.

## INDUSTRY-SPECIFIC SOLUTIONS

- While deeply rooted in mining technology, **DataKonsult's solutions** extend to **agriculture, finance, healthcare, manufacturing, and logistics**, ensuring data-driven success across diverse sectors.
- The Central Information Hub consolidates and structures data to **optimize decision-making** and **operational oversight**.

# INNOVATIVE TECHNOLOGY INTEGRATION

- While deeply rooted in mining technology, **DataKonsult's solutions** extend to **agriculture, finance, healthcare, manufacturing, and logistics**, ensuring data-driven success across diverse sectors.
- The Central Information Hub consolidates and structures data to **optimize decision-making** and **operational oversight**.

# PROVEN OPERATIONAL IMPACT

- **Cost Savings & Efficiency Gains:** Data-driven insights have identified **discrepancies** in mining operations, **reducing unnecessary costs** by millions through precise drilling, fuel rebates, and labor tracking.
- **Real-Time Compliance Monitoring:** The **MAN SIC platform** enables **compliance-to-plan tracking, improving efficiency and accountability**.
